IMPORTED FOOD SPECIALTIES

Imported **FOOD**. Great **SERVICE**. Global **EXPERIENCE**.

After almost 30 years of importing food from around the globe, let us put our experience to work for you. We have the expertise to supply your chain with quality imported foods, on a consistent basis, at competitive prices. With a thorough understanding of the supply chain and international trade, we can help identify possible alternatives to bring your costs down. Please contact **Scott Leach @ 800.631.7070 X208** or **slench@ambrosia-foods.com** for more information or to review your imported food requirements. You can also check out our complete product line at www.ambrosia-foods.com.

NEW ITEMS

AMBROSIA Balsamic Glaze – This product is the reduction of balsamic vinegar from Modena Italy, which produces a thick sweet glaze. It is a perfect complement to almost any food: drizzle a small amount to finish meats, poultry, fish, vegetables or pasta, soups, and even on fruits and ice cream. Packed in 6/13.5 oz plastic squeeze bottles.

Holland Biscuits – These baked biscuits, imported from Holland, are primarily used as the bread/toast under the cheese in French Onion Soup. They can also be served with poached eggs or used in other breakfast applications, creamed seafood or chicken dishes, or used for open faced sandwiches. Each case contains 312 round pieces, approx 1/2" high and 3-1/2" across. End user cost is approximately \$0.09/each. We are happy to forward a sample to you.

AMBROSIA Lemon Juice – This product comes packed in 12/32 oz plastic bottles, and is priced very competitively vs national brands.

CURRENT ITEMS

AMBROSIA Mandarin Oranges – New pack in China is in the 4th quarter, and prices are expected to be similar to last year. Our spec is maximum 5% broken pieces (industry standard), but we can also quote on a higher percentage of broken pieces which lowers the price. We stock 6/10's and 28 oz cans.

AMBROSIA Maraschino Cherries – We stock all varieties: with stem, without stem, and halves, in 4/1 gal and 6-1/2 gal plastic jars. Careful attention is paid to only packing whole cherries with minimal breakage, and our "with stem" have a very high percentage of cherries with the stem attached. Our 62 oz drained weight per gallon is higher than many others, which makes for a better value. Contact us today for a quote!
